Lecture Week2 A

Pen Test Interview

Your Role

Favourite hack/Exploit

**Yourself, your role, and what
type of engagements you
work on?**

**What
"systems/platforms/controls"
do you normally pen test
against?**

What type of exploits to you often seek?

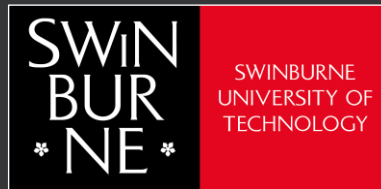

Favorite vulnerability to find and why?

**Red Team, social
engagements are a speciality
of yours, any notable
engagements?**

How do you equate for physical security?

What comes after the hack/pen test?

**Which of the OWASP top 10
do you:**

1. See most often

2. Think is a specialised talent

How do you keep up to dates on new techniques?

**How likely are some of the
exploitation's you perform to
be achievable in the real
world?**
